

TECHNICAL DATA SHEET

Fiberglass Combo Mat

Code: WRM800/600

Fiberglass Combo mat is a fabric of woven roving and chopped strands randomly dispersed fibers knitted together with an organic yarn, applying for hand lay up, compression molding, pultrusion or filament winding.

Technical Parameters

Construction	Area Weight g/m ²	Tolerance	Remark
Woven Fabrics	800	±5.0%	E glass woven roving EWR800
CSM	600	±7.0%	E-glass 2400 tex
Stitching	10	-	Polyester 111d' tex
Total Area Weight	1410	±7.0%	
Moisture Content	≤0.2%		

Packaging

It is wound onto a paper tube, wrapped with plastic film, with or without carton box. Lay the rolls horizontally. For transportation the rolls should be loaded into container with pallets.

Storage

Unless otherwise specified, fiberglass products should be stored in a dry, cool and rain-proof area. The room temperature and humidity should be always maintained at 15°C~35°C and 35%~65% respectively.
